

Dockets Management Branch (HFA-305)
Docket No. 98N-1265
Food and Drug Administration :48
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: *My doctor has prescribed for me and*
The compounded prescriptions that I've been taking have given me none of the side effects I experienced from the synthetic drugs I was taking for my menopause symptoms. I'm now able to sleep through the night have a more stable emotional state. I'm treating my osteoporosis ^{and} more effectively protecting my bones. My body is significantly improved. Without this medication I will be at risk in all the above areas because I cannot tolerate the other synthetic medications. These are the compounded prescriptions my doctor has prescribed for me. Restricting my ability to obtain these ^{CB19} will most certainly compromise my quality of life and my ability to meet the demands of my family responsibilities.
